IE, IT, LU, MC, NL, PT, RO, SE, SI, SK, TR).

[Continued on next page]

(54) Title: OPTICAL COMMUNICATIONS MODULE AND SUBSTRATE FOR THE SAME

(57) Abstract: A substrate (6) on which cavities (3) hav-  
ing floors and steps is provided. End faces of a light-  
emitting device (8), an optical component (4a), and an  
optical transmission line (1) are abutted on one of the  
cavity for positioning, and end faces of a light-receiv-  
ing device (9), an optical component (4b), and an optical  
transmission line are also abutted on the other cavity for  
positioning. Integrated alignment of optical axes facili-  
tates alignment of optical axes, and thus eli- minates the  
need of a CAN package. Accordingly, the size and height  
of an optical communications module can be reduced.

## INTERNATIONAL SEARCH REPORT

International Application No

PC 03/14351

## A. CLASSIFICATION OF SUBJECT MATTER

IPC 7 G02B6/42 H01S5/02 G02B6/36

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 G02B H01S

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, INSPEC

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 6 103 398 A (DENTON ROBERT K ET AL) 15 August 2000 (2000-08-15)	1,8-13, 15,17, 18,21, 23-25, 27-31
Y	column 2, line 4 - line 5 column 3, line 20 - line 67; figure 2 column 5, line 15 - line 20 ----- -/--	16,22,26

☒ Further documents are listed in the continuation of box C.☒ Patent family members are listed in annex.

## \* Special categories of cited documents :

- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier document but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- "&" document member of the same patent family

Date of the actual completion of the international search
